The Section 106 monies from the Brown Jug development amounting to circa £13,000 has still not be lodged with DCC. This money has been applied for by this council. Cllr Nicholson suggested when it is resolved a small committee is formed to look at how to use the money on open spaces.

A previous incident of broken glass being placed in the same area was discussed.

Cllr Prince was concerned that it is going to take a really serious incident before we get any help from the Police.

Cllr Nicholson referred to the felling of trees at Craggwood. This needs to be monitored to ensure no trees are felled on the council owned part of the wood.

Cllr Nicholson gave members on the Welfare Ground:

Floodlights are not working despite what has been reported – generator needed a battery and a service; some of the lights work but others do not. Mr Dunn was asked to get a price for the bulbs and the works needed on the generator – the generator costs were £240 which the Trustee account will cover.

It is agreed we would like to see the floodlights in use for all. The interim cost of the bulbs of £540 could not be met by the limited Welfare Trustees funds. The Youth Fund from the Randolph Community Centre will therefore step in and cover these costs. It was noted the cost could well increase but things should still be able to be met from the fund, as this will be a benefit to many long term.

Members were informed the floodlights will not be put into use until all safeguarding policies, and checks are seen to be in place by groups wanting to use the facilities. We are ensuring the young people, coaches and the Trustees are protected.

It was agreed it was a great thing that is being done with the young people, but it must be done correctly. To date we have not received any documents requested.
